

# FROM CHICKS AND BUNNIES

## Materiale

Grundværktøj Provetro værktøj  
3mm Fusing glas  
Glaspulver  
Kanthal tråd 1mm (3529010)

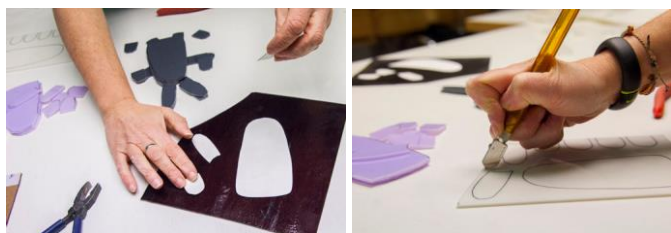

## Trin 1

Fremstil en skabelon efter dit eget design, eller brug vores gratis designblad.

## Trin 2

Placér skabelonen på glasset, overfør formerne til glasset og skær dem ud med en glasskærer.

## Trin 3

Lav en ramme af kanthal-tråden, som derefter vil fungere som ophængning.  
Kanthal-tråden er også perfekt til modellering af fødderne, kløerne, tulipanerne og andre filigran-designs.

## Trin 4

Dekorér glasset, f.eks. med pulver med skærmtryk-teknik eller med frits, stringers confetti osv.

Når du er tilfreds med det hele, kom glasset i ovnen. Sørg for, at tråden mellem glasstykkerne holdes på plads under fusing-processen. For at tråden ikke skal glide, fiksér den med nogle sten i ovnen.
